

Rain proof slim type REPSN SEIRES

RPS-400HL-12 / RPS-300HL-12/RPS-200HL-12/RPS-100HL-12

APPLICATION

- » Industrial automation control;
- » LED lighting, industrial control equipment, power equipment;
- » Semiconductor refrigeration and heating;
- » Liquid crystal display;
- » Audio and video products, security monitoring

FEATURES

- » Universal AC input range AC180V - 240V;
- » Nylon plastic on both ends of the power supply, to prevent high temperature, anti freezing, prevent aging;
- » Built-in heat sink, hydraulic fan, intelligent temperature control to improve the effect of heat dissipation and prolong the service life of products;
- » Adopts single FR-4 PCB, surface screen printing on the component side, solder joint surface use gold plating process;
- » 100% full load aging test, to ensure that every product is safe and reliable, excellent quality.

PARAMETERS

Product model	RPS-400HL-12	RPS-300HL-12	RPS-200HL-12	RPS-100HL-12
Dimension(Unit:mm)	L238*W50 *H24	L208*W50 *H24	L180*W50 *H24	L140*W50 *H24
Input voltage	AC187-262V	AC187-262V	AC187-262V	AC187-262V
Output voltage	DC12V	DC12V	DC12V	DC12V
Output current	33.3 A	25 A	16.7 A	8.3 A
Output power	400W	300W	200W	100W
Lifetime	≥20000h	≥20000h	≥20000h	≥20000h
Working temperature	-25~+60℃ 10%~90%RH			
Protection grade	Ip64	Ip64	Ip64	Ip64

ATTENTION

WARNING

The power supply is made of metal aluminum shell, and has been treated with colored oxidation. The shell has been grounded. It should be grounded reliably during installation to ensure safety. Do not connect either the live wire or the neutral wire to the ground wire to prevent fire.

- » Do not installed the product place where is easily immersed;
- » Do not install the power near flammable and explosive goods;
- » Install the power supply in a well-ventilated place;
- » When the power supply installed in the outdoor, must be installed in vertical suspension way;
